## On-Demand Cleaning Controllers Panels

- **6/10/22 point boards**
- **NEMA 4/4X Enclosure**
- **Clear face panel**
- **Pressure ports**
- **0-10" Built-in pressure module**
- **3-Position rotary switch on side (On-demand/Off/Continuous)**

Timer is available in numerous contact configurations, based on the size of the collector and the number of valves to be pulsed.

The USAF On-Demand Timer board is a self contained timer w/enclosure. With a built in pressure switch for pulse on-demand cleaning based on pressure drop. Complete with digital display readout for pressure drop reading displayed in inches of water 0-10"spwg.

Adjustable for valve on/off time adjustments for control of length of pulse and duration between pulses.

Available in Explosion proof enclosures as well. (Consult factory for pricing).

Complete with tubing for connection to pressure taps high/low.
