

BAGHOUSE Dust Collector

Responsive Service & Support
Rugged Construction, Reliable Performance.

Clearing the Air for a CLEANER ENVIRONMENT

Our MISSION

U.S. Air Filtration was established in 1987 to serve the needs of industries requiring air pollution control systems. We are your single source supplier for all your dust collection equipment, parts, and filters. We pride ourselves in our ability to bring true quality and savings to our customers, helping them run their businesses more efficiently. Our relationships with our current customers stands as a testimony to this focus in our organization.

DESIGN FEATURES

- 12 gauge hot rolled steel housing, reinforced to withstand +20 IWC
- Structure designed to withstand 100 MPH winds + Zone 3 seismic loads
- Patented cleaning system with solid state timer pre-wired in NEMA 3R 4 enclosure (100V)
- 60 hopper with square discharge, flanged and pre-drilled for auxiliary equipment
- Compressed air manifold mounted with pipe couplings on both ends for easy connection of air supply
- Hopper discharge clearance of 48", sized for slide gate and 55 gallon drum adapter
- Flanged inlet and pre-drilled flanged outlet
- Removable 20" x 20" hopper access panel (for airlock)
- One full set of filter bags and wire cages with mounting hardware
